Across

- [2] Tiny invisible mist created by the sun's warmth, rising into the sky.
- [3] When water vapor cools high up, it forms these fluffy white shapes in the sky.
- [5] After rain, water soaks into the ground and helps...grow.
- [7] Any form of water, such as rain, snow, sleet, or hail, that falls from the atmosphere to the Earth's surface.
- [9] The process by which water turns from a liquid into vapor or gas and rises into the atmosphere.
- [10] This giant ball of fire heats water, starting the water cycle journey.

Down

- [1] The process by which water vapor in the atmosphere cools and forms liquid droplets, leading to the formation of clouds.
- [4] A heavy rainstorm with a significant amount of rainfall in a short period.
- [6] The amazing process that describes the journey of water on Earth, explained by Maya's grandma.
- [8] Maya's chatty brown squirrel companion with eyes as dark as olives.
